

Aesculap and Microsystems Partnership

Quality instrumentation and innovative software

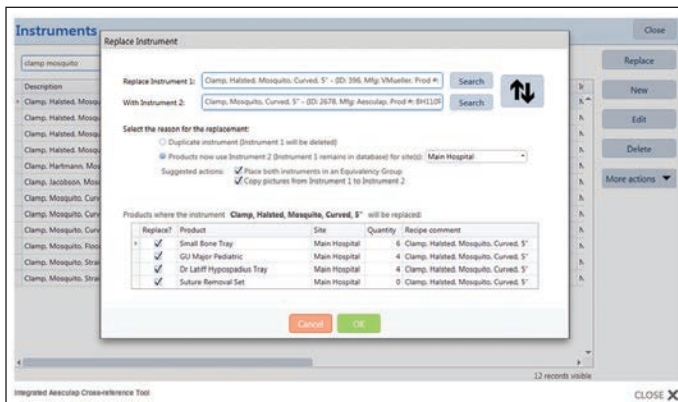

Aesculap Services

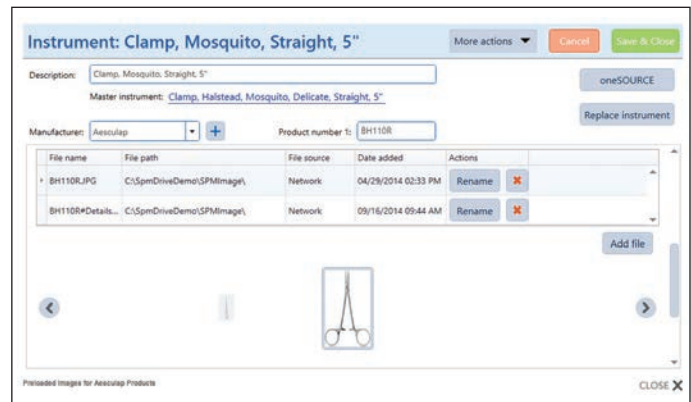

AESCULAP[®]

Aesculap and Microsystems Partnership

The Aesculap and Microsystems partnership leverages expertise in surgical instruments and repairs with instrument tracking software to provide improved products and services for our customers.

Integrated Aesculap Cross-reference Tool
Quickly and easily find product equivalents and replace in count sheets.

Preloaded Images of Aesculap Products
Make it easier to confirm the right instrument for the right tray.

Through our unique technology partnership, we help hospitals

CAPTURE, ORGANIZE and ANALYZE

all of their instrument data to achieve new levels of efficiency, safety and savings.

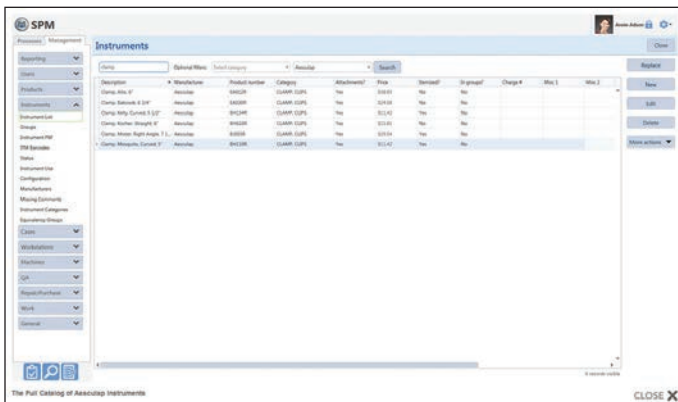

Sterile Processing Information System

SPM® ensures the delivery of fit instrumentation and equipment, in an optimal condition for use, when and where it is needed, and at an acceptable cost basis.

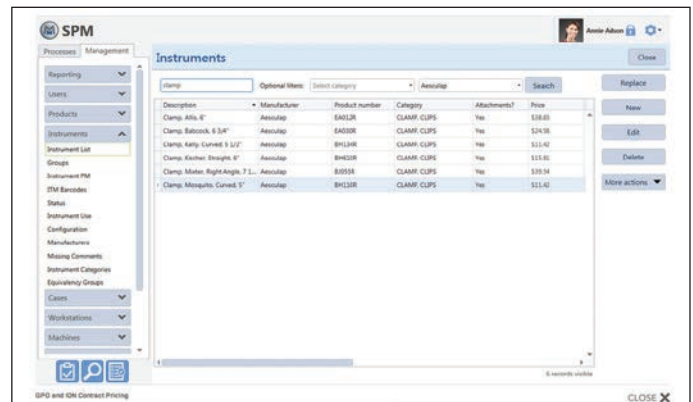

Microsystems

Aesculap customers will benefit from pre-programmed settings which grant immediate access to time-saving tools like product cross-referencing, on-screen, easily recognizable product images, an integrated catalog and your facilities' pre-negotiated GPO or IDN pricing for quick ordering.

The Full Catalog of Aesculap Instruments
Easily search Aesculap's full line of surgical instruments within your SPM software.

GPO or IDN Contract Pricing
Product ordering is made easier with your facility's contracted pricing loaded directly in the SPM software.

Benefits to Sterile Processing Department:

Improve Asset Management

- Build accurate and complete sets
- Reduce the number of lost items, the cost to refurbish/repair devices and other costs of maintaining inventory.

Improve Productivity

- Streamline processes and remove bottlenecks
- Match staffing levels to workload
- Advance staff competency through extensive training tools
- Mobilize resources to meet specific end-user demand
- Use of tools to improve service levels / on-time availability of instrumentation

Improve Quality and Accountability

- Access IFUs and facility-developed special instructions for cleaning, assembly, packaging and sterilization
- Ensure accountability for all tasks, processes and results
- Generate comprehensive electronic documentation package for compliance with AAMI, AORN and Joint Commission

Reporting and Decision-support Tools

- 300+ standard reports
- No-charge custom reports/queries
- Standard monthly reporting package with performance metrics.
